Do you or a loved one have any of the following symptoms?

- * BURNING
- * STABBING
- * SWELLING
- * TINGLING
- * SHOOTING
- * NUMBNESS
- * THROBBING
- * POOR BLOOD CIRCULATION

Treatment for Diabetic Neuropathy

If so...

I would like to tell you about a treatment option known as the VST MyoDynamic® Stimulation which is available to you right here in my office.

This electrical stimulation technology has emerged to combat several musculoskeletal ailments. Patients who suffer from peripheral neuropathy, soft tissue injuries, strains/sprains, and other conditions have been treated with the VST MyoDynamic® Stimulation therapy successfully. Best of all this treatment option is non-surgical, non-painful, and is covered by most insurance plans.

VST MyoDynamic Stimulation

Benefits:

- Increased local blood circulation
- Muscle re-education
- Prevention of disuse atrophy
- Increases range of motion
- Relaxation of muscle spasms
- Immediate post-surgical stimulation

**GET ON WITH YOUR RECOVERY AND
RETURN TO A PRODUCTIVE,
INDEPENDENT LIFESTYLE !**
